### DETAILED ACTION

Applicant's arguments filed 4/17/06 have been fully considered but they are not persuasive. The response submitted by Applicant does not overcome the rejection made by Examiner in the last office action.

Claims 1-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over EP 1245554 of record on 1449.

The rejection is maintained for the reasons as stated in the last office action and for the following reasons:

Applicant's arguments are based on the steps of the process in claim 7 to form the product of claim 1.

Note that claims 1-6 are the claimed composition by itself in that neither steps of the process nor specific conditions have been claimed.

The requirement for the claimed composition is formula (1) in claim 1 and the reference does disclose a formula, corresponding to the claimed formula (see last office action).

Further, as stated in the last Office action, the claimed n can be 0 due to the sulfonic acid ester does not have to be present in the formula and the claimed product is no longer a sulfonic acid ester derivative ~~any more~~. In this particular case, the steps of the process in claim 7 can not be used to form the claimed product.

Because of that, a new ground of rejection is cited herein:

Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-4 are indefinite in the case if  $n=0$  then the product can not be named an aromatic sulfonic acid ester derivative.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
